2001 Eagle Baseball Outlook

The 2001 Morehead State University Baseball Eagles feature the leadership of a small, yet talented group of upperclassmen and the enthusiasm and excitement that come with a large group of talented freshmen and sophomores.

The 2001 roster includes three seniors, six juniors, 10 sophomores and 12 freshmen. Seniors Shawn Hall (LHP), Thad Kingsolver (C) and Jimmy Mains (2B) are three-year lettermen. Of the six juniors, four played key roles last season: Eddy Bushelman (RHP), Brandon Hignite (OF), Rick Lowe (RHP) and Will Renaker (1B). All of the above figure to play key roles this season.

The large numbers of sophomores and freshmen are a result of back-to-back outstanding recruiting classes.

Coach John Jarnagin and his staff will have to find replacements for several quality players who graduated: Jason Kennedy (LF, .414, 18 doubles), Mike Reichert (3B, .413, 13 HR, 52 RBIs), Cam Langham (RF, .318, 9 HR, 43 RBIs) and Sam Hoehner (SS, .317, 52 runs, 23 stolen bases).

A look at the Eagles, position-by-position, follows:

FIRST BASE: Renaker (.338, 8 HR) returns after an outstanding initial season with the Eagles. Bubba Lavender, a medical red-shirt last season, will serve in back-up role here, at third base and in the outfield, while likely serving as MSU's designated hitter. Kevin Chenault will also play here as serve as a designated hitter.

SECOND BASE: Mains (.285) returns as the starter. Squad member Justin Goodpasture and Kevin Matuszek provide depth.

SHORTSTOP: David Hughes, an all-stater at Elizabethtown (Ky.) High School last season, won the job in the fall. Matuszek and Mains are the candidates when Hughes is out of the lineup.

THIRD BASE: Matuszek, the son of former major leaguer Len Matuszek, transferred to MSU after playing last season at Ohio University. He can play any infield position. Lavender and Cary Page are both capable at the hot corner.

OUTFIELD: Hignite (.330, 10 doubles) is an outstanding defensive center fielder. He should be joined in the lineup by Casey Gilvin in left field and Page (.352, 12 doubles, 5 HR) in right field. Gilvin, an all-stater at Lexington (Ky.) Henry Clay High School, will also back up Hignite in center field. Page should again be one of the top power hitters in the OVC. Depth in the outfield will be provided by veterans Roy Gentry (.182, 10 runs), Lavender and Andy Foster and newcomer Jon Childers.

CATCHER: Thad Kingsolver (.271), who threw out 27 of 85 base stealers in 2000, enters his third season as the starter. Nate Lowe (.294) saw action in 17 games last season as a freshman. Childers arrives after a tremendous career at Boyd County (Ky.) High School.

DESIGNATED HITTER: Lavender, who has excellent power and speed, is the likely starter. Chenault and freshman Casey Campbell are also candidates.

PITCHER: Four veterans and a newcomer will battle for spots in the starting rotations as the season begins. Hall (LHP, 2-2, 6.50 ERA) will either earn a starting spot or serve as the key middle reliever. Juniors Bushelman (RHP, 5-6, 5.91 ERA) and Rick Lowe (RHP, 3-2, 5.53 ERA) pitched in the conference rotation last season. Chad Par-

Outlook, Depth Chart

sons (RHP, 6-2, 5.19 ERA) became the first Eagle to ever win six games in a freshman season. Campbell (RHP) arrives after an all-star career at Lexington (Ky.) Henry Clary High School. Joining Hall in middle relief will be returnees Luke Lockwood (LHP, 1-2, 12.83 ERA) and Larry Robinson (RHP, 0-0, 10.29 ERA) and freshman Triffon Callos (LHP). Jarnagin expects to start the season with red-shirt sophomore Crawford (0-0, 4.05 ERA) and freshman Justin Seiter (RHP) as closers, but both could also make spot starts.

The 2001 Eagle nonconference schedule includes road dates at Tennessee, East Tennessee, Belmont, IUPUI, Kentucky and Louisville and home dates against Toledo, Dayton, Wright State, IUPUI, Youngstown State, Belmont and George Washington.

Meeting the educational needs of Eastern Kentucky while striving to constantly improve the quality of its public service, economic development and applied research programs are the primary objectives of Morehead State University.

Historically the University traces its lineage to the Morehead Normal School, which opened its doors in 1887. The private school closed in the spring of 1922 when the Kentucky General Assembly established Morehead State Normal School. The state institution accepted its first students in the fall of 1923 and graduated its first class in 1927. Name changes occurred in 1926 when "and Teachers College" was added, again in 1930 when it was shortened to Morehead State Teachers College, again in 1948 when "Teachers" was dropped and, finally, to university status in 1966. Twelve men, starting with Dr. Frank C. Button, have served as president. Dr. Ronald G. Eaglin assumed office as the 12th president on July 1, 1992.

Academically, the University offers 66 undergraduate degree programs, including 9 associate level degrees and 11 pre-professional programs in four colleges -- Business, Education and Behavioral Sciences, Humanities, and Science and Technology -- and 19 academic departments. There are 20 graduate degree programs plus 2 graduate level non-degree programs designed especially for professional educators. A post-master's level degree, education specialist, and a joint doctoral program with the University of Kentucky also are offered on the MSU campus.

Classes also are conducted in Ashland, Jackson, Maysville, Pikeville, Prestonsburg, West Liberty, Whitesburg and other locations. Extended campus centers located in Ashland, Prestonsburg, and West Liberty are staffed with administrative personnel.

The University

Additionally, the University offers a number of distance learning courses throughout the region via Internet and interactive video. Sixty-three percent of MSU's 320 full-time faculty members hold doctoral degrees.

Physically, the University is located in the foothills of the Daniel Boone National Forest in Rowan County. The nearly 500-acre main campus within the city limits of Morehead includes more than 50 major structures with a total replacement value of more than \$144 million. Beyond the city, the University's real estate holdings include the 320-acre Derrickson Agriculture complex and a nine-hole public golf course. The instructional plant includes 120 class rooms and 112 laboratories. Housing facilities include space for approximately 3,400 single students and 178 families.

Fiscally, the University currently operates on an annual budget of \$81.2 million with about \$38.2 million provided by the state and \$21.8 million coming from tuition and fees and other sources. Additionally, grants and contracts from external sources for research, service and academic/student support projects generate about \$7 million each year. Private donations to the University, mainly through the MSU Foundation, Inc., have reached \$2 million.

Statistically, the University has awarded more than 44,000 degrees, has an average fall enrollment of 8,200 and more than 990 full-time employees. The student body represents 97 Kentucky counties, 40 states and 40 foreign countries. The University attracts more than 55,000 visitors each year and its economic impact, directly and indirectly, on the Morehead area is estimated at more than \$70 million yearly.

Administratively, the University is governed by an 11-member Board

of Regents with eight citizens appointed by the governor and three seats held by the elected faculty, staff and student representatives. Management of the institution is vested primarily in four divisions -- Academic Affairs, Administration and Fiscal Services, Student Life and University Advancement--each headed by a vice president.

Athletically, the University sponsors 18 intercollegiate sports for men and women in accordance with the regulations of the Ohio Valley Conference and Division I of the National Collegiate Athletic Association. MSU also supports an intramural program involving more than 20 team and individual sports.

He currently serves on the NCAA Board of Directors for Division I and as president of the Ohio Valley Conference. Mission Statement

Dear Friends:

Morehead State University is committed to upholding the highest integrity within all procedures and practices of the athletic department. We are pleased to publish this note as a reference to understanding often confusing NCAA regulations.

The NCAA defines "representatives of athletic interests" as alumni, friends and boosters of the University. All member institutions are held accountable for their representatives' actions. One violation could jeopardize the eligibility of any or all Eagle Athletic programs.

As a general rule, anyone who has financially supported Eagle Athletics, been a member of any booster organization, or who has supported Eagle Athletics is considered a "representative" of Eagle Athletics. If anyone has questions regarding these types of relationships, please contact Brian Hutchinson, Director of Development & Marketing (606) 783-2593.

Prospective student-athletes can be defined as a student who has started classes in the ninth grade or any younger student-athlete who has received a benefit from the institution. These individuals may only be recruited by MSU coaches who have passed the *NCAA Recruiting Rules Examination*. While "representatives" of Eagle Athletics may speak to any of these individuals via telephone or in person, a recruiting effort must not be made. Also, no student-athlete or prospective student-athlete may receive any extra benefit outside of the support provided by the institution. For any questions regarding this description, please contact Jim Wells, Compliance and Educational Services Director (606) 783-5136.

These are certainly not all the regulations any "representative" of Eagle Athletics must remember. However, they provide a good outline of the types of things that could endanger the eligibility of any MSU Athletics program. Again, feel free to contact us if you have any questions. Thanks again for your support of Morehead State Athletics.

The Ohio Valley Conference Sportsmanship Statement

General. The Ohio Valley Conference is committed to establishing sportsmanship and developing healthy environments for competition. This conference wants to lead the way in abolishing the notion that it is desirable to create a "hostile" environment for intercollegiate athletic contests. Instead, we will strive to create "hospitable" environments. We believe that part of the role of education through sports is to teach our youth and our communities to conduct themselves with sportsmanship and respect for opponents.

In an effort to achieve this goal, the Conference has developed this statement which outlines the expectations of the various groups and individuals associated with our intercollegiate athletics program.

Administration. It is incumbent upon institutional administrators to create an environment of hospitality for visiting teams, particularly for those individuals at Conference institutions. OVC administrators must develop the attitude that the treatment of a visiting team and its fans will be in the same manner that they would want their teams to be treated.

The athletics director at the host institution must ensure that he or she, or someone else designated as game manager, approaches the coach of the opposing team at a spectator event in order to welcome that coach to the institution, provided an opportunity for the coach to address and concerns, indicate the location of the game manager in the arena or stadium and identify security personnel to ensure that the visiting team is protected from abuse from the home crowd and that security is in very close proximity to the visiting team's bench. Each institution must arrange its seating at spectator events so as to emphasize sportsmanship and minimize the harassment of the visiting team and its fans.

The athletics director must ensure that those who are employed by the university treat the opponents with fairness and respect. For example, public address announcers must be required to announce the contest in an evenhanded manner with equal excitement for both teams. The institution's chief executive officer and athletics director should review periodically with other athletics department staff members, coaches, student-athletes and spirit groups (cheerleaders and bands) precisely what is acceptable conduct, as set forth in this document.

Coaches. Coaches have the greatest amount of influence over whether the young people in their programs are taught and follow the high principles of sportsmanship. The OVC has been benefited by coaches who have risked losing a contest by removing student-athletes who have demonstrated

disrespect for the opponents. This discipline measure educates that individual and his or her teammates about the importance of sportsmanship over participation and winning. This type of attitude and courage must be adopted by all OVC coaches. Administrators and coaches must pay special attention to their student-athletes' behavior and continually emphasize the need for sportsmanship and respect. Such education is needed to counteract the constant messages received by our young people from many professional athletes and others who demonstrate a lack of respect for opponents. This Conference and its coaches are committed to teach messages that are appropriate about sportsmanship.

Coaches also have the ability to influence the behavior of their fans. OVC coaches must take every opportunity when addressing the media, booster groups or other public forums to express the desire for fans to support their team at home contests, but not to abuse the visiting team. Coaches and administrators should stress that the participants in our athletics contests are young people who do not deserve to be mistreated by a hostile crowd.

Student-Athletes. Respect for the game in which the student-athlete participates also demands respect for the opponent. Student athletes at OVC institutions are expected to treat opponents with sportsmanship.

OVC student-athletes must understand that they are perhaps the most visible representatives of their institutions. Also, their behavior is observed and emulated by many who are younger. OVC student-athletes must honor the responsibilities that accompany the privilege of representing our schools by behaving with dignity and class on and off the field.

Spirit Groups. Like our student-athletes, these groups are visible representatives of our universities. As such, we place high expectations on them for decent behavior. Cheerleaders, bands and other spirit groups are admitted to contests at the pleasure of our institutions to support their teams and assist in creating a fun atmosphere. They are not admitted in order to disrupt or confront the opponent and such behavior will not be tolerated. Their focus must be toward encouragement of their team and respect for the opposing team.

Officials. Officials who are assigned Conference contests must enforce the rules regarding sportsmanship, without tolerance for abuse. The only warning to participants and coaches regarding sportsmanship should come at the beginning of the contest. Once the contest begins, penalties (consequences), not warning, must be assessed for violations of unsportsmanlike conduct. Similar to the baseball policy of ejecting coaches for arguing balls and strikes, the Conference will require that officials

eject any coach who protests unsportsmanlike conduct calls, provided such ejection is permissible to the rules of that sport.

Each official assigned by the OVC will be provided a card with the following statement which must be read to the captains and coaches of every contest prior to the beginning of the game: "The OVC requires officials to enforce all rules regarding unsportsmanlike conduct by coaches and players. There will not be any tolerance for negative statements or actions between opposing players, especially taunting and baiting. If such comments are heard, a penalty will be assessed immediately. If any coach protests an unsportsmanlike penalty, he or she will be ejected for the contest. We have been instructed not to issue warnings during the contests. It is strongly suggested that you remind your participants of this policy." Officials who do not follow this policy will be subject to suspension.

Commissioner. The commissioner is expected to enforce the unsportsmanlike conduct rules of the game and the Conference. He or she is authorized to assess penalties for improper behavior that is not detected or properly addressed during the contest. Institutions and their personnel are expected to fully cooperate with his or her effort to investigate possible improper behavior.

In the unfortunate event that an altercation occurs during a contest, all individuals who are on the bench are expected to remain there. It is incumbent upon the head coach to ensure that this occurs. The commissioner is directed to suspend automatically the head coach of a team whose bench personnel enter the field or court of play during an altercation, regardless of whether those individuals become involved in the altercation.

Fans. The Conference hopes and believes that the establishment of the principles outlined in this document will create a wholesome atmosphere that will attract more fans to our events. The fans attending our games must be reminded by the public address announcer of the expectations of sportsmanship and respect for both opponents.

We expect that all fans will act in an appropriate manner, and respect the opposition and the officials. We understand that occasionally there are individuals who attend games and abuse the opposition and officials. Those individuals may be dismissed from athletic events.

Concluding Statement. The Conference believes that the effort to meet the expectations outlined in this document will increase the attractiveness at our athletic events by creating a healthy environment for our competition.
